1. a) What is preventing the renewal of Koris U. 17/B which is in my opinion as well as a number of other Structural Engineers opinion, that its an Unsafe Structure on the verge of Collapse? Why isn't there at least an "SZMSZ" in the more than 5 yrs, that it became a Condominium/Társasház? What has, what is preventing the "SZMSZ"? Why are these 3 empty units in city ownership? Why doesn't the city sell all 3? Why wasn't I notified that one is now for sale? What is preventing Mechanically shared Toilets from being eliminated and replaced with Toilets in each unit? Why did the City Quit management at Koris U. 17/B and Karacsony Sándor U. 14?

Kérjük, a Felszólalási lapot - olvashatóan kitöltve - legkésőbb 2015. november 23. napjáig juttassa el a

In addition to the questions submitted in person, Nov, 18, 2015,
Please reply to the following questions in addition to the previous ones.

What application, if any and what approval maintained the Chain of Title in the Abstract history on the Deed of Koris U. 17/B, [REDACTED] which was, as I found out after purchasing, was originally an 8 square meter, Kitchen, according to the original Architectural Drawings stored at Teve St?
Would you please provide Supporting Documentation of Approved Application, by any previous owners who converted the 8 Square meter Kitchen into a self contained Condo

Wondering if a previously submitted and acknowledged received / be iktatott letter, regarding Bike policy at Or St. / Utca . #8 / Poster on wall of Management building yard went astray or ?
The content included concern that the posted sign stating Bikes are Prohibited looks contrary to the Bike friendly policy , displayed elsewhere,
especially during Mobility week and Car free day.
Question is when will the posted sign be replaced by a more Bike friendly sign encouraging Bike parking in a secure designated , guarded
bike storage area monitored by remote visual monitor cameras such as the BME?
